

## What's New For You

Enhancements to the ultra-rugged Archer Field PC™ speak to your needs.

Windows Mobile Today Screen (Español)

Subdued Tactical Gray

Power Dock

### More Data Storage Capacity

The Archer Field PC is now available with a full 256 MB or 512 MB of storage space. Additional internal storage lets you store more data on the Archer and run bigger programs. Operating system files are stored in a separate, safe memory location.

### Multiple Languages Available

The Archer Field PC operating system now includes Language Provisioning. Upon first start up, configure your Archer to run one of 16 languages. Languages available include: Chinese-simplified, Chinese-traditional, Danish, Dutch, English, Finnish, French, German, Italian, Japanese, Korean, Norwegian, Portuguese, Russian, Spanish, Swedish.

### A New Look

For applications where a subdued appearance is required, the Archer Field PC is now available in dark gray over-molding in place of our standard high visibility orange. Choose the color that best fits your application.

### Additional Power and Sync Options

The new Archer Power Dock lets you synchronize with a desktop PC via USB and charge the Archer battery at the same time. A spare battery can be charged with the versatile Power Dock. Use the Power Dock on your desk or mount it to the wall. A separate Travel Charger is also available for charging spare batteries on the go.

### Operating System Features

The Archer Field PC operating system includes several new features to improve operations. Files and Notes synchronization options are now implemented. For WiFi users, WPA2 security protocol is available. Screen and key backlight settings offer flexible, improved brightness controls.
